

Songs for Auditioning

- An audition song reflects your personality. So be sure to find a song that you can be yourself and be comfortable performing.
- Choose a song that is IN your vocal range, one that you can sing all the notes easily.
- Listen to musicals to get some ideas for audition songs.
- Find a song that you can relate to and portray the character.
- Choose a song that shows off the very best of your talents.
- Choose a song that you can find a karaoke track for- or have one made so you can practice it at home to music. No Karaoke CD is needed for auditions. Auditions are sung A Cappella.
- You do not have to start a song at the beginning! Some of the best audition pieces are in the middle of songs.
- Make sure you edit your song so that it is 1 minute, and starts where you need it. It's nerve-wracking to wait until the correct starting spot is found.
- Upbeat songs are usually best. Disney songs are always a hit.
- Select a song that you can have fun with.
